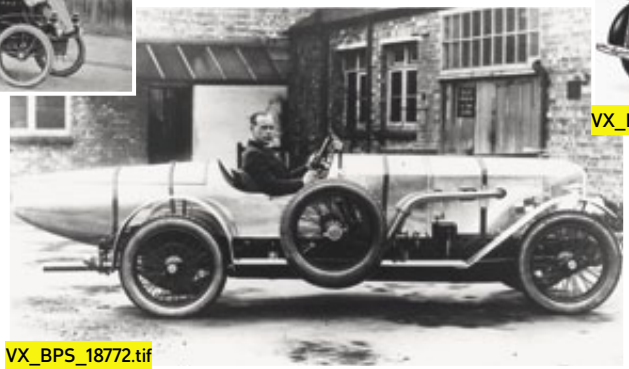
MERIVA

2013 Models Edition 2

WELCOME TO A LIFETIME OF FORWARD THINKING

VX_BPS_18771.tif

1903 – Forward thinking has been in our nature from the very start. The 6HP, our first ever car, had two forward gears. And no reverse.



VX_BPS_18772.tif

1922 – The Silver Arrow OE 30-98 was capable of speeds of over 100mph, this model was built for shipping magnate Sir Leonard Ropner to race at Brooklands.

VX_BPS_18773.tif

1937 – The Vauxhall '10' H-type, the first British car to have integral construction.

VX_BPS_18774.tif

1957 – The PA Cresta introduced Americana styling to the UK.

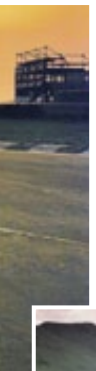
VX_BPS_18775.tif

1984 – The MkII Astra introduced class-leading aerodynamic styling that still looks good today. The Formula Vauxhall Lotus ran a modified version of the Astra GTE's 2.0i 16v engine.

VX_BPS_18776.tif

1971 – The formation of Dealer Team Vauxhall (DTV). The track car was the precursor to our enormous success in touring car racing.

VX_BPS_18777.tif



VX_BPS_18778.tif

1989 – The Lotus Carlton was the world's fastest production four-door saloon.

VX_BPS_18779.tif

1990 – The Calibra was the world's most aerodynamic production car.

1999 – The Zafira introduced the revolutionary Flex7® seating system inventing the seven-seat compact MPV.

VX_BPS_18780.tif

2012 – Ampera. The first ever Extended-Range Electric Vehicle (E-REV) that redefined electric vehicle innovation leading to it being voted European Car Of The Year 2012.

VX_BPS_18781.tif

2012 – The 'RAK e'. A radical looking electric concept car for the future. Our forward thinking continues.

VX_BPS_18782.tif

Scan this QR code with your smart phone for more information on the last 100 years of Vauxhall innovation. Don't forget to download a QR reader from your app store first.

The world was a very different place in 1903 when Vauxhall made its first car. We steered with tillers, not wheels. Six horsepower was considered pretty nippy. And King Edward's face was still on the stamps. But for us, one important thing hasn't changed: we started out with a philosophy of Forward Thinking and, more than 100 years later, it still motivates everything we do. Who knows what innovations the next 100 years will bring?

The Vauxhall Lifetime Warranty. There's one thing every owner of a new Vauxhall can rely on. We're so confident in Vauxhall quality and reliability that we are now able to offer a lifetime warranty. It's available to the first owner of all our new Vauxhall passenger cars and valid for the lifetime of the vehicle up to a maximum of 100,000 miles. So you've got year after year of carefree driving to look forward to...

Please see back cover for full details of the Vauxhall Lifetime 100,000 mile warranty.

LIFETIME
WARRANTY 100,000 MILE

Embrace Meriva.

Say hello to Meriva. Our stylish family car, with clever doors and flexible seating, smart storage and rear seat access like you've never experienced before.

This brochure covers Meriva Expression, S, Exclusiv, Energy, Tech Line and SE models only. Some of the models shown include options and accessories available at extra cost. And not all of the features described are available on every model. We may also offer alternative Meriva models such as Special Editions. So for all current model or equipment details visit the Vauxhall website: www.vauxhall.co.uk

VX_N_MER_15120.tif

Enjoy the journey.

Meriva may be perfect for family life. But it's also great to drive, with reassuring balance, strong safety features and lively, efficient multi-valve turbocharged petrol and diesel engines.

Feel the difference.

Whatever's happening all around you, Meriva helps you focus on the road ahead. Smart ergonomics put the instruments, controls and displays in all the right places. And hugely adjustable seats make it easy to find the perfect driving position.

VX_N_MER_16852.tif

Your comfort zone.

Meriva has more interior flexibility and comfort than ever before – and more intelligent features too. There's high quality materials, a real contemporary feel and generous light and space.

VX_N_MER_16851.tif

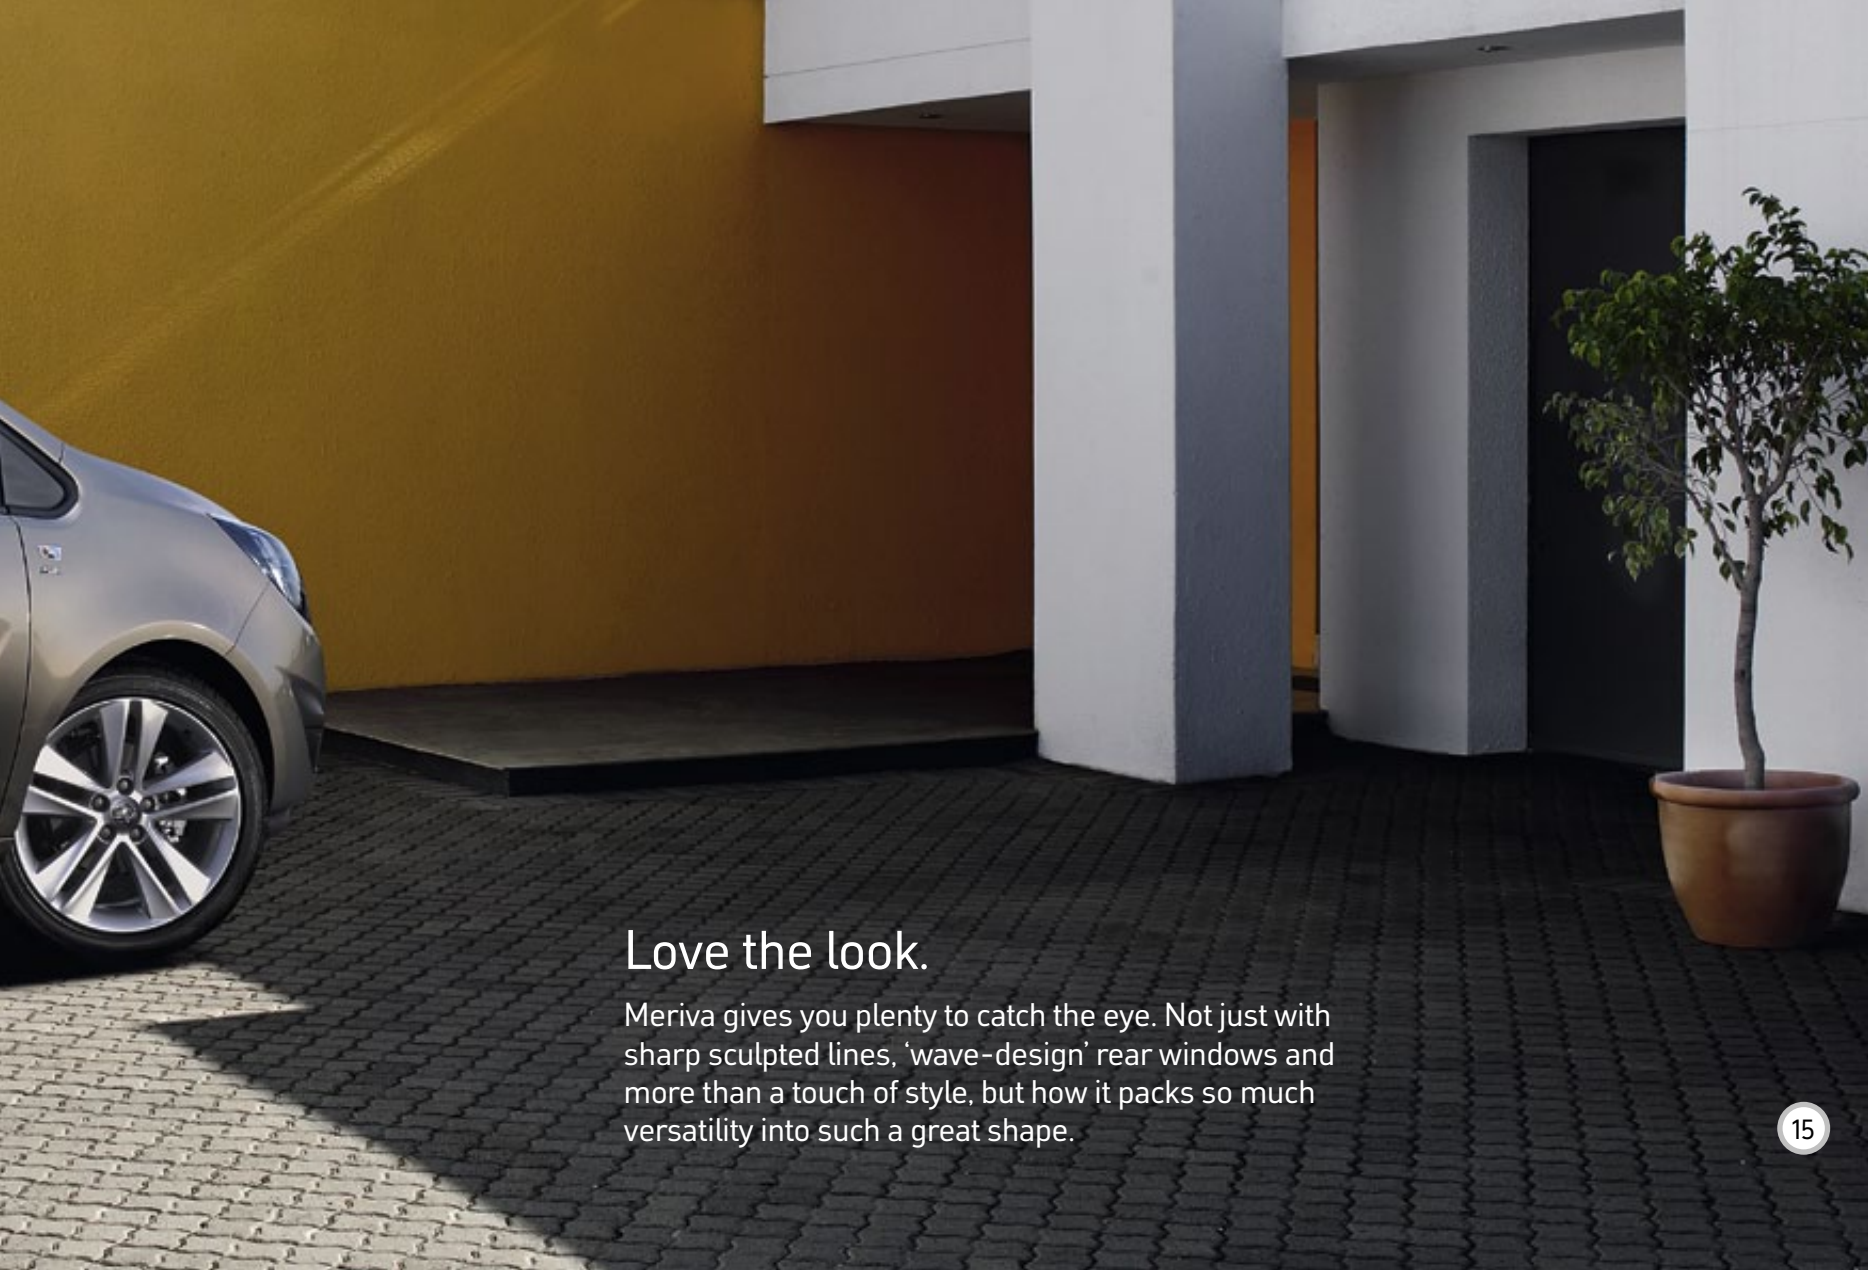
Organise your life.

Meriva is packed with places to keep your belongings with up to 32 practical storage solutions. FlexRail® is our even smarter centre console system. Think modular. Think sliding drinks holder or phone tray. Think centre armrest with really useful storage for front seat passengers. Now rearrange it and think again.

SE model illustrated.

VX_N_MER_19556.tif

VX_N_MER_15124.tif



Love the look.

Meriva gives you plenty to catch the eye. Not just with sharp sculpted lines, ‘wave-design’ rear windows and more than a touch of style, but how it packs so much versatility into such a great shape.

Real life savings.

Meriva's range of ecoFLEX engines have been designed to save you money. So how do we embrace great savings without taking away the lively power delivery and driveability of your Meriva? Well, the benefit of improved fuel economy speaks for itself but lower CO_2 emissions also mean savings on Vehicle Excise Duty (VED) and lower company car taxation too.

Let's take a look at the Meriva 1.3CDTi 16v (95PS) ecoFLEX Start/Stop. Producing as low as 109g/km of CO_2 means no VED* for the first year of registration and only £20 a year* after that. How's that for a saving!

And we haven't stopped there. We have been researching ways of developing new cars that are more efficient than ever before. The new Vauxhall Ampera** is an Extended-Range Electric Vehicle (E-REV) that can drive up to 50 miles on battery power alone and over 300 miles utilising an on-board electric generator system.

But then it's not just our cars that can help you save money. You can help yourself by simply adopting smarter driving techniques. Smooth throttle control, changing gear at around 2000rpm when accelerating and lifting off the accelerator earlier in order to slow your vehicle down, all contribute to efficient motoring.

So there you have it. More than one reason why at Vauxhall we embrace a philosophy of forward thinking that helps your money go further.

ecoFLEX

*Correct at time of going to press.

Scan this QR code with your smartphone, watch our Eco Driving tips video and start saving.

VX_N_MER_15983.tif

Leaner, greener and great to drive, the Meriva engine line-up consists of three 1.4 litre petrol engines and five diesels – three 1.3 and two 1.7 litre units – all delivering brilliant performance with high levels of efficiency and Euro 5 compliant emissions.

Low-emission petrol engines.
All Meriva petrol engines feature advanced induction with Variable Valve Timing (VVT) technology for high fuel economy and performance. A 100PS engine is matched with two turbocharged versions – a 120PS model and a range topping 140PS variant, the latter unit cleverly combines the turbo with longer gear ratios to reduce fuel consumption and emissions without loss of driving enjoyment.

High-tech diesels.
Meriva's five diesel engines are also turbocharged, adding fuel-injection, common rail diesel technology, which cuts emissions, reduces noise and lowers fuel consumption. The 95PS 1.3CDTi ecoFLEX models are particularly eco-friendly, with closed-loop combustion control and taller gear ratios which combined help reduce emissions to just 119g/km. On all models strict emissions control is further achieved through the use of a Diesel Particulate Filter (DPF), electronically controlled Exhaust Gas Recirculation (EGR) and, on the 1.7CDTi models, a variable intake system designed to optimise efficiency and reduce emissions. The 1.7CDTi (130PS) engine is the perfect example. With up to 300Nm of torque available from just 2000-2500rpm, it provides very brisk performance – but without compromising fuel economy or low CO_2 emissions.

Start/Stop technology.
The Meriva ecoFLEX Start/Stop models switch the engine off when you stop at the lights or in traffic, then restart it automatically once the clutch is depressed, saving fuel and reducing emissions even further. The AUTOSTOP symbol housed within the rev counter indicates that the engine has stopped. The system can be deactivated manually by simply pressing the ECO button on the facia. As the chart below shows, the Meriva 1.3CDTi 16v (95PS) Start/Stop model cuts CO_2 emissions considerably.

Three transmissions.
An easy-shifting, five-speed manual gearbox is standard on all 1.3CDTi diesels, and the 1.4i 100PS and 120PS petrol variants. A performance-focused six-speed manual is standard on the 1.4i 16v VVT Turbo (140PS) and the hot 1.7CDTi 16v (130PS) diesel. And a specially calibrated, six-speed fully automatic transmission is standard with the 1.7CDTi (110PS) diesel and optional on the 1.4i 16v VVT Turbo (120PS) petrol, which adapts to your driving style and even the prevailing road conditions. With its innovative ActiveSelect® feature, it also allows sequential driver gear selection via the shift lever.

	Combined fuel economy mpg (litres/100km)	CO_2 emissions (g/km)	VED band (2012/13)* First year	Standard	Benefit-in-Kind tax band** (2012/13 tax year)

VX_N_MER_15125.tif

FlexDoors®. Meriva is packed with innovative thinking aimed at making life easier, more comfortable and more convenient, but our rear-hinged FlexDoors® tear up the family car rulebook to bring real benefits in so many areas.

Easy access.
FlexDoors® open independently of the front doors, and far wider than normal, so it's much easier to get in and out of the car, wherever you sit.

Easier on your back.
FlexDoors® are far kinder on your back too. Research by the Department of Industrial Design at Coventry University looked at the effects of lifting even just a 5kg object (a small baby, for example) in and out of Meriva's rear seats. Compared with the previous model, the FlexDoors® help reduce back muscle loads by up to 58% and leaning and twisting angles by up to 48%. Back strain was reduced even just getting in and out of the car.

No wonder Meriva has been awarded a Certificate of Excellence by the highly respected German AGR (Campaign for Healthier Backs) panel of doctors and ergonomic experts – the first time they've certified a complete vehicle's ergonomic concept, rather than individual components.

VX_N_MER_16025.tif

Safe and secure.
While mechanically activated rear child locks are standard, the whole FlexDoors® system is protected by a range of electronic safety systems – the rear doors are locked electronically at speeds above 2mph, for example. A green LED light in the rear door handle signals when the door can be opened from the inside. Key electrical safety components are 'doubled up' – aircraft-style – and monitored constantly. And if the doors are not closed properly, the driver is warned both audibly and visually on the instrument panel.

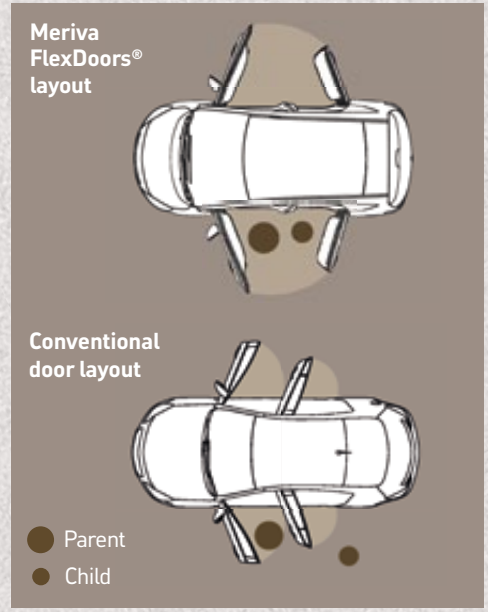
VX_N_MER_15375.tif

VX_N_MER_15374.tif

Parent-friendly.
Wider access makes it easier to lift young children in and out of the car and secure them safely into a child seat. And if you open both front and rear doors, it creates a parent-friendly zone where it's easier to control children as they step in and out of the car.

VX_N_MER_16023.tif

VX_N_MER_16024.tif



FlexDoors®. Not just clever, but altogether safer and ergonomically efficient, Meriva's rear doors open the other way. So it's easier for everyone to get in and out – with improved roadside safety. And simpler to ensure the kids are seated safe and secure.

VX_N_MER_19555.tif

FlexSpace®. How many seats do you need today? Five? Four? Three? Just two? In Meriva, the choice is yours. The outer rear seats can be individually moved backwards, forwards and diagonally inwards or all three can be folded flat for more luggage space. So you get superb levels of versatility – without ever having to remove a seat.

VX_N_MER_15131.tif

FlexSpace®. It's all about finding simple ways to accommodate every family transport need, however unexpected. Meriva is a comfortable five-seater, with ample leg and shoulder room for three rear seat passengers – each with a lap and diagonal seatbelt. It's also a generous four-seater with extra leg and shoulder room, a versatile three-seater and a two-seater with acres of luggage space.

VX_N_MER_19557.tif

Five seats.
In five-seat mode, the outer rear seats move forward individually by up to 140mm. This not only creates extra luggage space but also ensures that it's easier to reach over to the kids in the rear seats. On Tech Line and SE models it even brings rear seat passengers closer to the folding trays – yet another child-friendly feature.

Four seats.
It's easy to convert Meriva from five seats to four. With the middle seat back folded, the outer rear seats can be moved diagonally – back and inwards in one automatic sliding action – creating extra leg and shoulder room for maximum comfort.

Three seats or two.
Meriva offers generous luggage space – as much as 1496 litres maximum, and 397 litres even in the five-seater configuration. But as you would expect, it's the flexibility that really counts. With its 40/20/40 split-folding rear seat, you can fold either side flat for people and luggage in various combinations. Or fold just the centre seat flat creating a practical load-through space for longer items.

Best of all, Meriva's rear seats can now be released and folded flat with a single, one-touch operation – from the rear seat or luggage area – so you can switch effortlessly from three to two to one in seconds, without removing any seats from the car.

VX_N_MER_19648.tif

VX_N_MER_19558.tif

VX_N_MER_19559.tif

VX_N_MER_15377.tif

Integrated safety systems.
Meriva has a rigid central safety cell, designed for maximum protection, plus availability of the latest passenger restraint technology – airbags, seatbelt systems and active-safety front seat head restraints. The chassis is also packed with active-safety features, specially enhanced to help you keep control in all driving situations.

VX_N_MER_15418.tif

Child safety. All Meriva models feature pre-fitted ISOFIX mountings on the outer rear seats. When used in conjunction with the accessory Vauxhall Duo ISOFIX child seat, the system ensures a fixed anchorage for the child seat. The ISOFIX attachment also features Vauxhall's Top Tether restraining strap system for greater security under extreme braking. Vauxhall's two other child seats – the rear-facing Baby Safe and the KID – cater from birth to 12 years. All Vauxhall child seats (including the Duo ISOFIX illustrated right) can be fixed using the standard lap and diagonal seatbelts. Meriva's wide-opening FlexDoors® offer easier access to the rear seat, so it's even simpler to secure a child safely into a child seat. With front and rear doors open, Meriva also creates a partially enclosed area at the side of the car. Effectively a parent- and child-friendly zone that makes it easier to control children as they step in or out of the car.

Adaptive Forward Lighting (AFL). Meriva can be specified with an optional halogen lighting system, featuring dynamic curve light and static cornering light. The result? Better visibility and enhanced safety too.

VX_N_MER_15390.tif

Active-safety front seat head restraints. Meriva's active front seat head restraints move up and forward under a rear impact to minimise the risk of whiplash injury and guard against other head and upper body injuries. Standard on Exclusiv, Tech Line and SE models, optional as part of the Protection Pack on Expression, S and Energy.

VX_N_MER_19609.tif

Airbags. Meriva is equipped with front and side-impact airbags for driver and front passenger (front only on Expression models). The front passenger airbag can be deactivated for child seat use. Curtain airbags are also standard on Exclusiv, Tech Line and SE models.

Vehicle illustrated features accessory Vauxhall Duo ISOFIX child seat, available at extra cost.

VX_N_MER_16026.tif

VX_N_MER_15162.tif

Comfort class. Look inside. And out! Meriva is designed to keep you comfortable, however long the journey ahead. And the large windscreen, 'wave-design' rear window line and huge panoramic glass roof* all ensure a great view for both front and rear seat passengers.

**Standard on SE models.*

Ergonomic sports seat. Are you sitting comfortably? If not, your driving could be as badly affected as your posture. Meriva's optional fully orthopaedic sports front driver's seat** has eight-way adjustment and four-way electro-pneumatic lumbar support.

1. Four-way active-safety front seat head restraints
2. Four-way adjustable lumbar support
3. Lumbar adjust control
4. Seat recline adjustment
5. Seat height adjuster
6. Cushion tilt control
7. Extendable seat cushion

***Awarded the coveted AGR seal of approval for helping to prevent the in-car back pain and tension suffered by some car occupants. Aktion Gesunder Rücken e.V (AGR) is an independent panel of ergonomics experts and doctors based in Germany.*

Panoramic glass roof. Stretching over both rows of seats, this full-width glass roof – standard on SE models – makes the whole car feel even more light and airy. An electrically operated sunshade helps protect you if the sun gets a little too hot.

VX_N_MER_19563.tif

Electronic Climate Control (ECC). This optional dual-zone system incorporates air conditioning with a particle filter.

VX_N_MER_15163.tif

Electric parking brake. The electric parking brake not only saves space, it also releases automatically when you drive off, making hill starts much easier.

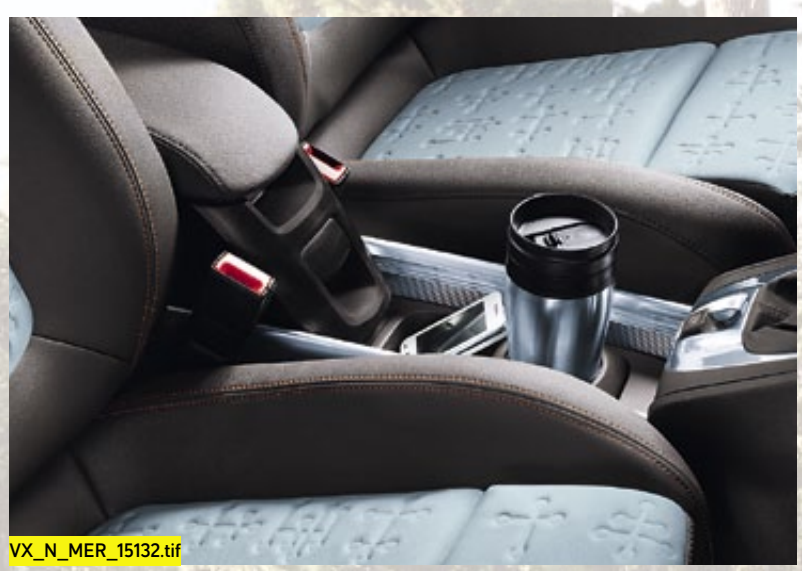
VX_N_MER_15167 .tif

Heated leather-covered steering wheel. Part of the optional Winter Pack along with heated front seats. Perfect for those chilly winter mornings. Standard on Tech Line models.

VX_N_MER_15985.tif

VX_N_MER_15388.tif

Flex Floor. Our two-position, adjustable luggage compartment floor is standard on all models. When lowered, it maximises rear load height and volume. In the upper position, it's flush with the folded rear seats and the rear sill, providing a flat loadspace area with easy loading – plus a useful 86 litres of loadspace under the Flex Floor.



VX_N_MER_15132.tif

VX_N_MER_15381.tif

Up to 32 storage possibilities. All of them accessible, flexible and usefully sized storage spaces. A generous glovebox, roomy door pockets (front and rear) and a driver's side sunglasses holder are just some of the headline storage features fitted as standard. Seat back tables and front underseat storage are two further features available on Tech Line and SE models.

VX_N_MER_15373.tif

Flex-Fix®. This fully integrated optional rear carrier system, capable of safely transporting two bicycles (illustrated right), disappears into the rear bumper when not in use. Always there when you need it. Out of sight when you don't.

FlexRail®. The FlexRail® system provides highly versatile, modular, multi-level storage and occupies the deep space between the two front seats. Within the base centre console there are two fixed cup holders, storage tray spaces for mobile phones, MP3 players etc, the auxiliary-in stereo input and a 12-volt power outlet. Exclusiv models feature the FlexRail® system's aluminium rails, reaching from the front centre console back to the rear footwell, plus a practical sliding tray/cup holder. SE models add a front sliding centre storage module with armrest and lid. It could not be simpler. Or more useful.

VX_N_MER_15986.tif

VX_N_MER_15142.tif

Stay informed, entertained, and in touch. Meriva comes with quality audio equipment – not just great radio and CD sound, but simple controls and easy connectivity to your MP3 player or iPod. You can also upgrade to the optional satellite navigation.

CD/MP3 CD player/stereo radio (CD 300). Standard on Expression, this system features a CD/MP3 CD player, aux-in socket, 18 station presets, triple information display and six 20-watt speakers.

CD/MP3 CD player/stereo radio (CD 400). This fully featured single-disc CD/MP3 CD player is standard on all models except Expression. Features include stereo radio with 36 station presets, USB connection, aux-in socket, remote graphic display, RDS with Traffic Programme and six* speakers.

Mobile phone systems. Meriva Energy and Tech Line models feature a Bluetooth® hands-free system as standard. Depending on model the S, Exclusiv and SE have a choice of up to two optional systems (at extra cost) using wireless technology. Both allow you to operate your phone's key functions from the steering wheel, the audio unit or via voice control (when enabled on the mobile phone).

**Models fitted with Bluetooth® are fitted with seven speakers.*
***The Navi 600 Satellite navigation system on Tech Line models can be ordered as an extra-cost option or a no-cost option in lieu of the heated front seats, heated steering wheel and front and rear parking distance sensors.*

Satellite navigation/CD/MP3 CD player/stereo radio (Navi 600). Optional at extra cost** on all models except Expression, the Navi 600 unit uses SD card-based memory technology to store navigation map data of more than 30 European countries and Points of Interest information. This enables high-speed access and allows universal networking with mobile devices and digital data media. The system includes all the functions of the CD 400 and allows dynamic route guidance via RDS/TMC with automatic updates and re-routing information. Bluetooth® mobile phone is also available at extra cost.

VX_N_MER_16852.tif

VX_N_MER_15156.tif

Aux-in socket and USB. Mounted on the centre console, the aux-in socket facility lets you connect your MP3 player (most systems are compatible) to the car's audio system. The USB connection – standard on all models except Expression – allows you to view iPod and memory stick functionality via the audio display.

It’s your way of life. It’s your choice.

Meriva is available in six different models. Each with its own individual character. Take the new Meriva Energy for example. With its premium alloys, Bluetooth® connectivity and ability to play all your favourite music through its CD player with a plug for your MP3 device, it’s sure to make you smile.

VX_N_MER_19500.tif

Expression and S

Standard features include:

- Electronic Stability Programme-plus
- Anti-lock Braking System
- FlexSpace® flexible rear seats
- Flex Floor
- Twin front airbags
- ISOFIX child seat restraint system for outer rear seats (does not include child seat)
- Steering column adjustable for reach and rake
- Driver's seat height adjuster
- Electric parking brake
- CD/MP3 CD player/stereo radio (CD 300)
- Aux-in socket
- Electrically operated front windows
- Electrically adjustable/heated door mirrors (partial body-colour)
- Remote control central deadlocking
- Door-to-door illumination

In addition, S models include:

- CD/MP3 CD player/stereo radio with USB connection (CD 400)
- Front seat side-impact airbags
- Graphic information display
- 16-inch steel wheels (1.7CDTi 16v only)
- Remote control security alarm system (1.7CDTi 16v (130PS) only)

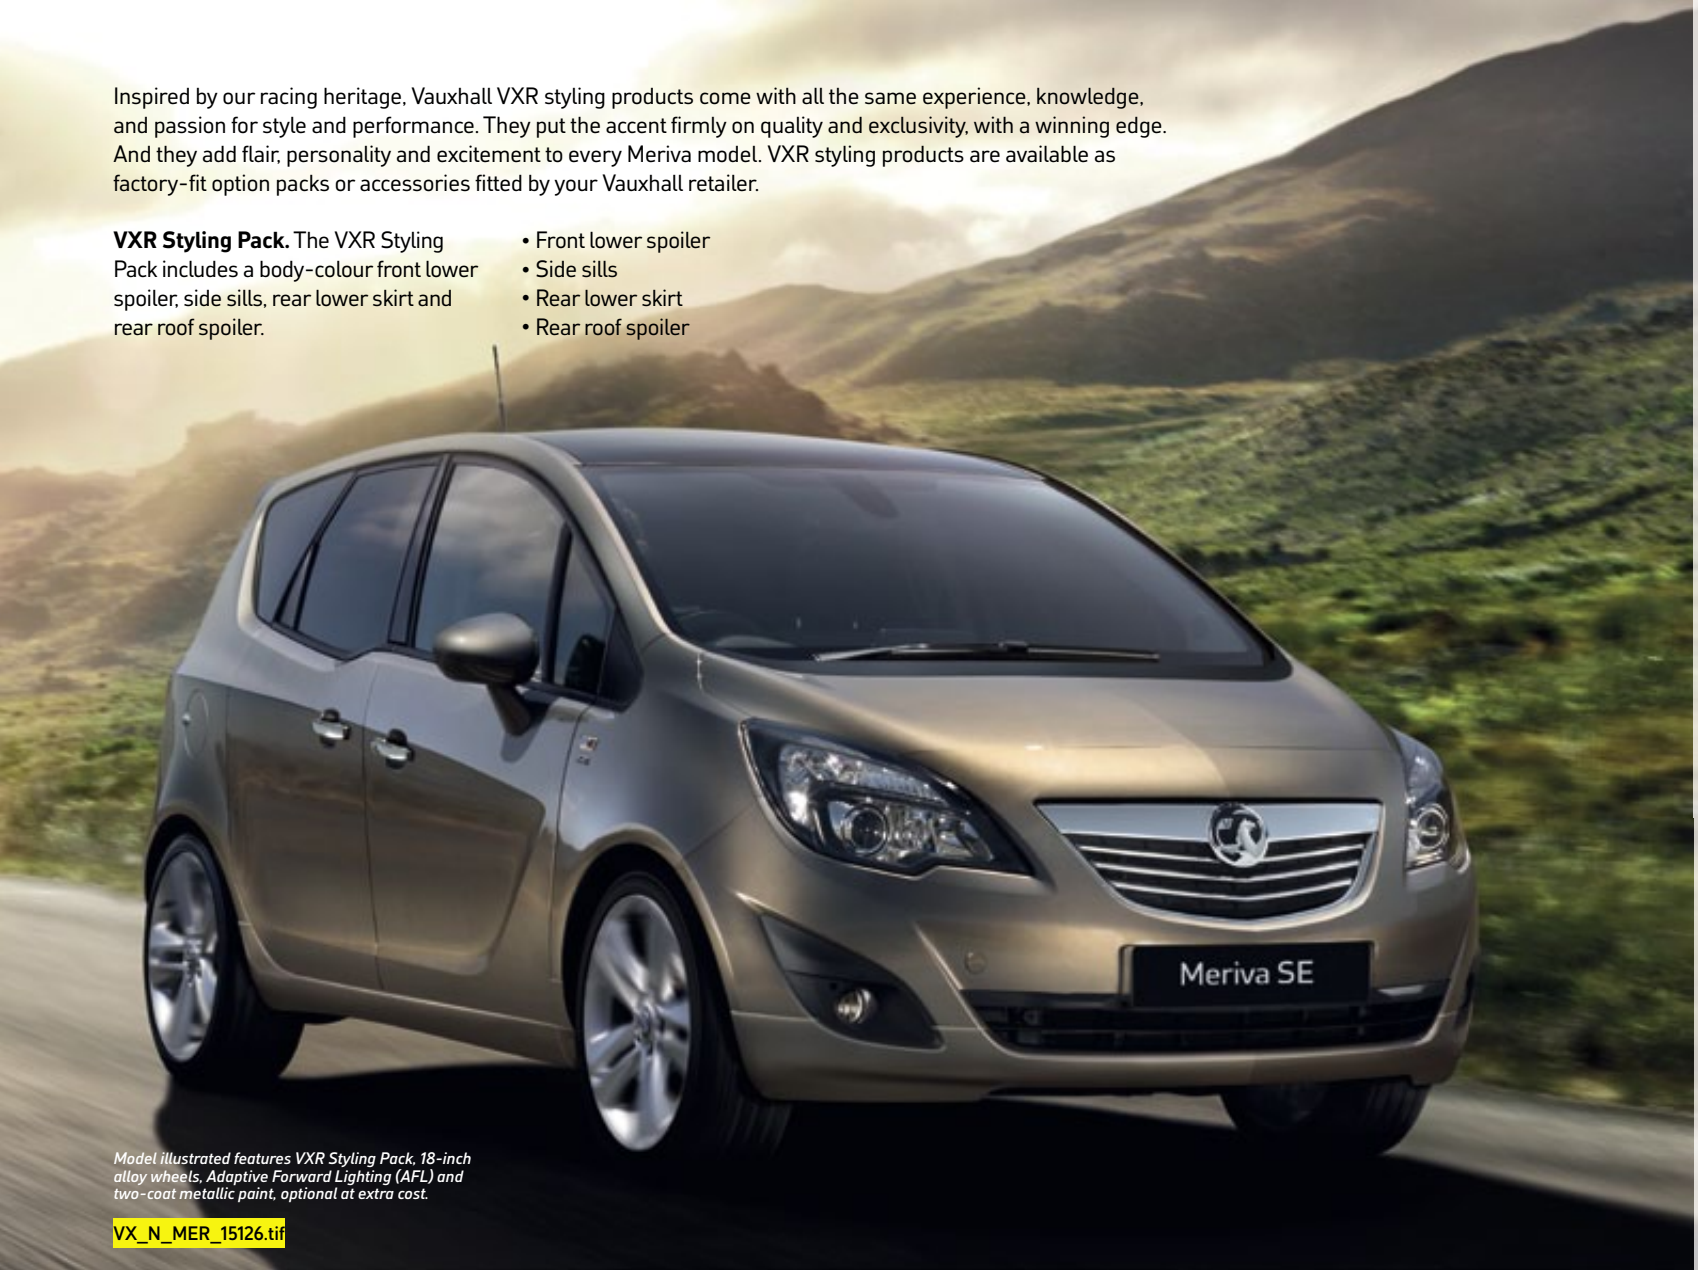
**Excludes 1.7CDTi S models.*
***1.7CDTi S models only.*
†Not available if vehicle is fitted with the optional Flex-Fix® or VXR Styling Pack.

Inspired by our racing heritage, Vauxhall VXR styling products come with all the same experience, knowledge, and passion for style and performance. They put the accent firmly on quality and exclusivity, with a winning edge. And they add flair, personality and excitement to every Meriva model. VXR styling products are available as factory-fit option packs or accessories fitted by your Vauxhall retailer.

VXR Styling Pack. The VXR Styling Pack includes a body-colour front lower spoiler, side sills, rear lower skirt and rear roof spoiler.

- Front lower spoiler
- Side sills
- Rear lower skirt
- Rear roof spoiler



Model illustrated features VXR Styling Pack, 18-inch alloy wheels, Adaptive Forward Lighting (AFL) and two-coat metallic paint, optional at extra cost.

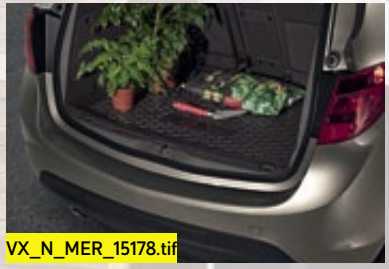
The choice is yours. Create a Meriva model that's even more in tune with your family's needs. Whether you need to carry a bike or simply protect your carpets from muddy shoes, Genuine Vauxhall Accessories are always the right choice. We've only featured a small selection here, so please check with your Vauxhall retailer for Meriva availability information or check out our website at **www.vauxhall.co.uk/accessories**

VX_N_MER_15419.tif

Floor mats. Economy, rubber and velour floor mats (illustrated) are available for the Meriva. All three styles sport a Meriva logo and have unique fixing points which help keep them firmly in place.

VX_N_MER_15418.tif

Child seats. The rear-facing Baby-Safe (right – up to 13kg) and KID (centre – 15-36kg) seats are fixed with a standard lap and diagonal seatbelt. The DUO ISOFIX (9-18kg – left) can also be attached using the ISOFIX child seat restraint fittings (complete with Top Tether), standard on the outer rear seats of Meriva models.



VX_N_MER_15178.tif

Semi-rigid cargo liner. Protect the load area with this semi-rigid moulded plastic liner. Designed with lipped sides for a snug fit, it provides maximum protection, yet is easily removed for cleaning.

VX_N_MER_15362.tif

Rear parking distance sensors. Activated automatically as you select reverse, this clever system beeps faster the closer you get to an obstruction, rising to a continuous tone at 300mm away.

VX_ACC_19802.psd

VX Protect. Protect your vehicle, inside and out, from spills, stains and colour fading. Available to new Meriva owners with a lifetime warranty!

VX_N_MER_15429.tif

Thule 'Free Ride' bike carrier. Used in conjunction with the Vauxhall base carrier this system allows you to transport a bike on the roof. Supplied with quick release straps and a lock for security.

The colours reproduced may vary slightly from the actual paint colour. As a result, they should be used as a guide only. Your Vauxhall retailer has a comprehensive display of our paint samples. Vehicle illustrated is a non-specific model.

Meriva's interior trims, available in comfortable, durable fabric or leather, have been carefully selected for their premium feel and appearance. They complement our exterior paint finishes, the textures, style and colour of the facia, door panels and other interior detailing, as well as reflecting the individual status of each trim level.

Vauxhall Lifetime Warranty

We're so confident in Vauxhall quality and reliability that we are now able to offer a lifetime warranty. Available to the first owner of all new Vauxhall passenger cars, it's valid for the lifetime of the vehicle up to a maximum of 100,000 miles†. In addition, our warranty also includes Vauxhall Assistance for 12 months from first registration and six years body panel anti-perforation warranty. Full details of Vauxhall's warranties including terms, conditions and exclusions can be obtained through any authorised Vauxhall retailer or go to: **www.vauxhall.co.uk/warranty**

LIFETIME
WARRANTY 100,000 MILE

*The free 3 Day Test Drive programme is open to Company Car Drivers and excludes fuel and lubricants; congestion charges; parking and speeding fines and the £250 insurance excess (if applicable). It features a wide selection of models from the Vauxhall range (excluding all VXR models and Commercial Vehicles and subject to availability). Drivers must be aged 25 years or over, have held a full driving licence for at least a year and hold a major credit card. You will need to have your driving licence (and proof of identity (i.e. passport) where the driving licence is not a photocard lice nce) when your car is delivered. While every effort will be made to ensure that at least 3 days are provided for the test drive, this cannot always be guaranteed due to delivery and collection dates and timings. Available for UK Mainland only. Terms and conditions apply. **Telephone lines open Monday-Friday 9.00am to 5.00pm excluding Bank Holidays. Calls may be recorded or monitored for quality and/or training purposes.

†Vauxhall Lifetime Warranty covers lifetime ownership of first car owner, 100,000 mile limit, annual check required. The warranty excludes wear and tear and serviceable items and the vehicle must be serviced in accordance with the manufacturer's servicing schedule to continue the lifetime warranty. Terms and conditions apply. Offer available to all Vauxhall passenger cars (this offer does not apply to car-derived vans) from 1st August 2010.

Every effort has been made to ensure that the contents of this publication were accurate and up-to-date at the time of going to press (January 2013). Vauxhall vehicles are equipped with components manufactured by various General Motors operating units and outside suppliers. The Company reserves the right to alter specifications and withdraw products from sale without notice. Any such alterations will be notified to Vauxhall retailers at the earliest opportunity; please consult your local retailer for the latest information. The specifications detailed within this brochure are not necessarily applicable to alternative models such as Special Editions. Details of any such models will be contained in specific literature or found on the Vauxhall website. Please note that Vauxhall retailers are not the agents of General Motors UK Limited and are not authorised to bind the Company by any specific or implied undertaking or representation. It is advisable to ensure that your motor insurance policy provides adequate cover for additional fitted options and accessories. Please note accessories shown are for illustrative purposes only. As part of Vauxhall's policy of environmental care, this brochure is printed on paper manufactured using Elemental Chlorine Free pulps from specially farmed, sustainable timber resources.
